PROFESSIONAL SUMMARY

Passionate and detail-oriented Frontend Web Developer with a strong foundation in modern web technologies including HTML, CSS, JavaScript, React, and Tailwind CSS. Proven ability to collaborate effectively in team environments, blending strong communication skills with a drive to build responsive, user-friendly, and high-performance web applications. Committed to writing clean, maintainable code and contributing to successful group projects.

EXPERIENCE

Frontend Web Developer - Personal Projects

- Developed and deployed multiple responsive web applications utilizing HTML5, CSS3, and Tailwind CSS, ensuring seamless user experiences across mobile and desktop platforms.
- Built interactive user interfaces and dynamic single-page applications (SPAs) leveraging JavaScript (ES6+) and React, improving components reusability and application performance.
- Collaborated effectively in group development scenarios, participating in code design discussions, and maintaining open communication channels to deliver projects efficiently.

EDUCATION

Bachelor's Degree in Computer Science / Information Technology

Sinai University • 2026
